

OUR CORE PHILOSOPHIES

We choose our attitude, have fun and are passionate and hands-on in all that we do.

We take risks, show initiative and seek innovative “made-at-Caribou” solutions.

We understand that great ideas and solutions can originate from any employee.

We do our best to amaze our guests every day. We listen to and learn from unfavourable feedback so we can amaze our guests in the future.

We are professional and accountable, and at the same time, flexible, responsive and family-oriented.

We work hard because we understand that hard work builds trust and creates opportunities.

We are results-driven and committed to efficiency and steady growth. We understand that profitability is essential to job security and a healthy work environment, and are committed to re-investment of profits in the community.

We respect, appreciate and are active in our mountain community and our National Park.

We believe that the hospitality industry and the community of Banff provide great career opportunities for everyone, whether you are here for a season or a lifetime!
